Studying and living in Belgium is a unique experience and different from attending a university in North America. Please outline what makes you feel that you have the necessary skills and character to succeed studying and playing in the Belgium academy. Include in your response your background and career goals.

Please keep in mind that while RRMFC is an academy that gives opportunity to students to seek professional playing contracts it is also very much concerned with the academic progress and success of its players while at the academy – the mission of the academy is to provide a positive student experience that will give you a life changing experience – your academic experience is as much a part of the experience as is the playing.
